Education

Ph.D. course in Mathematics, Seoul National University

March 2023 – , Advisor: Seonhee Lim

B.S. in Physics, Hanyang University

March 2016 – March 2023 (Mandatory military service, July 2019 – January 2021)

Research Interests

Homogeneous Dynamics, Hyperbolic Geometry, Ergodic Theory, and Diophantine Approximation

Homogeneous dynamics studies dynamical systems on homogeneous spaces such as tori and hyperbolic spaces. Various key examples of homogeneous spaces are negatively curved as subjects of hyperbolic geometry. Ergodic theory is an important analytic tool for studying homogeneous dynamics. Diophantine approximation is closely related to homogeneous dynamics, and I am currently working on this topic in non-commutative algebras.

Publications and Preprints

Diophantine Approximation by Lagrangian Frames in Symplectic Lattices

arXiv:2606.05096

Talks

Lagrangian Frame Approximation: From Dirichlet to Khintchine

Nov. 5, 2026

Online Seminar in Diophantine Approximation and Related Topics

Conference Attendance

2026 International Conference for the 80th Anniversary of the KMS

Jun. 22–25, 2026

ST Convention Center, Seoul, Korea

Ergodic Geometry and Discrete Groups in Irregular Worlds / Beyond Riemann

Jun. 1–5, 2026

CIRM, Marseille, France

Simons Semester: Continued Fractions, Fractals, Ergodic Theory and Dynamics (Weeks 4–5)

May 18–31, 2026

IMPAN, Warsaw, Poland

2026 Algebra Camp

Jan. 25–29, 2026

Elysian Gangchon, Korea

Dynamical Group Theory VII

Nov. 26–28, 2025

Seoul National University, Korea

2025 KMS Annual Meeting

Oct. 22–24, 2025

ST Convention Center, Seoul, Korea

Numeration and Substitution 2025

Sep. 8–12, 2025

Tsukuba University, Tsukuba, Japan

Beyond Uniform Hyperbolicity II

Jun. 9–13, 2025

ICTP, Trieste, Italy

Beyond Uniform Hyperbolicity I

Jun. 2–6, 2025

ICTP, Trieste, Italy

2025 KMS Annual Meeting

Apr. 24–26, 2025

KAIST, Daejeon, Korea

Workshop on Homogeneous and Complex Dynamics Seoul National University, Korea	Mar. 26–28, 2025
2025 Algebra Camp Yangpyeong, Korea	Feb. 9–13, 2025
Dynamical Group Theory V Gimhae, Korea	Nov. 19–22, 2024
2024 KMS Annual Meeting Sungkyunkwan University, Korea	Oct. 24–26, 2024
Dynamical Group Theory IV KIAS, Seoul, Korea	Sep. 24–27, 2024
Dynamical Group Theory III KIAS, Seoul, Korea	Aug. 13–16, 2024
Number Theory Intensive Lecture Series POSTECH, Pohang, Korea	Jun. 10–13, 2024
Dynamical Group Theory KIAS, Seoul, Korea	Feb. 29, 2024
2024 Algebra Camp Yangpyeong, Korea	Feb. 3–7, 2024
2023 KMS Special Conference with 2022 Fields Medalists Seoul National University, Korea	Oct. 26–28, 2023

Awards

Award for Excellence in Teaching	Feb. 2024
---	-----------

Teaching Experience

Calculus Practice 1 (teaching)	Fall 2026
Calculus Practice 1 (teaching)	Spring 2026
Differential and Integral Calculus Practice 2 (teaching)	Fall 2025
Honor Calculus Practice 1 (teaching)	Spring 2025
Engineering Mathematics 2, Advanced Calculus Practice 2	Fall 2024
Engineering Mathematics 1, Mathematics for Biology	Spring 2024
Calculus Practice 2 (teaching)	Fall 2023
Linear Algebra	Spring 2023
